

## REFRIGERATOR/FREEZER RECOMMENDATIONS FOR VACCINE STORAGE

The following is a list of refrigerators and freezers that have been recommended as good choices for vaccine storage by providers and other immunization programs. Please refer to Section 13 (page 47) of your *VFC Provider Handbook/Vaccine Management Plan* for guidance on buying and setting up vaccine storage units.

**Please Note:** We compiled this information from sources we deem reliable. However, we have not directly confirmed the availability, specifications, or performance of these appliances. Providers are responsible for confirming that appliances meet VFC requirements before purchase. The use of trade names in this document does not imply official endorsement by the Montana Immunization Program.
